EXPERIENCE

Software Developer

Aug 2024 - Present

SAP Labs India, Bangalore

- Contributed to **SAC Home Screen redesign** serving **2M+ monthly visits**; developed multiple cards, features, and admin customization options, improving **user experience** while ensuring **WCAG accessibility compliance**
- Developed **Joule AI copilot** capabilities for SAP Analytics Cloud, enabling natural language-driven analytics through custom action routing and **LLM** response rendering
- Built ETL pipelines extracting data from **55+ SAP landscapes daily**; created ServiceNow & JIRA monitoring dashboards for CDE Data Engineering team

Tech: SAP UI5, XSJS, Jasmine, BTP, HANA DB, SAC, Joule AI, Docker, Kubernetes, Python

Software Developer Intern

May 2023 - Mar 2024

Toyota Industries Engine India (TIEIndia), Bangalore

- Led digitalization initiatives by developing full-stack quality checklist systems supporting production of **9K+ engines monthly**
- Built cross-platform mobile applications using React Native for field operations

Tech: React JS, Node.js, Express, MongoDB, React Native

EDUCATION

MTech in Software Engineering

Present

Birla Institute of Technology and Sciences (BITS), Pilani | CGPA: 7.6

BTech in Computer Science & Engineering

2024

Christ Deemed to be University, Bangalore | CGPA: 9.6 | Honours in Data Analytics (**1st Rank**)

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, Java, C, C++
Frontend	React JS, SAP UI5, React Native, HTML5, CSS3
Backend	Node.js, Express.js, XSJS
Databases	MongoDB, SAP HANA DB, MySQL, Firebase, Oracle SQL
Cloud & DevOps	AWS (EC2, S3), SAP BTP, Docker, Kubernetes, Jenkins, Git
Tools	JIRA, ServiceNow, SAC, Joule AI, Claude AI, Postman, Vercel, Jasmine

PROJECTS

Manage My Truck - Fleet Management Platform

Aug 2024

- Built a fleet management SaaS for **fuel industry** clients to manage tankers, track expenses, and generate profit reports; **actively used by 2 businesses**

Tech: MERN Stack, Jenkins CI/CD | managemytruck.in

Quickkle - Food Pre-ordering Application

Jan - Mar 2023

- Created **FSSAI-licensed** food ordering app for Christ University canteens with Razorpay integration

Tech: React JS, AWS, Razorpay API

DropIt - All-in-one Cloud Storage Application

Jun - Dec 2022

- Built a **Copyrighted (Govt. of India)** unified cloud storage application combining all essential file management features

Tech: React JS, Firebase RTDB, Firestore, Node.js | beta.dropit.vercel.app

RPMS - Remote Patient Monitoring System

Aug 2022 - Apr 2023

- Developed **IoT-based patient monitoring system for a healthcare facility**, enabling doctors to remotely track and analyze patient vitals in real-time

Tech: React JS, Firebase RTDB, Node.js | rpms-doctor.vercel.app

ACHIEVEMENTS & CERTIFICATIONS

- > Best Performer Award Q4 2025 - SAP Labs India, SAC Home Screen Team
- > 1st Rank - Honours in Data Analytics, Christ University (2024)
- > Top 5% - NPTEL Java Programming Certification (Elite)
- > Certifications: Programming in Java (NPTEL) | PCAP - Python | Python for Everybody | C Programming | SQL & Python (HackerRank)
